The Moorhead Legacy Education Foundation is an all-volunteer board of community members working together to enhance educational opportunities and to provide scholarships for Moorhead High graduates. Winners of scholarships were selected by MLEF's Spud Scholars Committee with the help of MHS Counselors. The criteria for selecting recipients includes academic performance, school and community activities, work experience, career goals, and references. Students may attend a college, vocational school or university of their choice.

Students participate in raising funds for scholarships through the annual Spud Scholars Phonathon each spring. Funds raised are awarded as scholarships at the MHS Awards Night in May. Since 1991, MLEF has awarded over 2 million dollars in scholarships to over 2,000 students. Businesses, service clubs, and individuals are encouraged to participate in the Moorhead Spud Scholars scholarship program. Donors may designate their gifts to be awarded as scholarships in the current year or placed in the endowment fund, with only the earnings from the fund used each year, thus ensuring annual named scholarships.
